LUWEERO DIOCESE

THRU:

THE REV. FR JOHN MARY LUKWAGO  
KIWOKO PARISH  
NAKASEKE DISTRICT

Dear Father,

**RE: APPLICATION FOR A WATER SOURCE SUPPLY (BORE HOLE)  
TO OUR SCHOOL.**

In regard to the above reference, I hereby submit our application to your office for consideration.

The purpose of this application is to reduce risks and teaching hindrances the school is facing. Here below is a list of some of them,

Due to scarcity of water, pupils have failed to practice personal hygiene especially the girls during their menstruation period leading to diseases and absenteeism.

The near water source is along the main road and it's very busy which may lead to accidents.

Due to the big number of pupils in the school a large volume of water is needed to meet their consumption and domestic use.

Another reason is that the above near water source is for the community hence high population leading to time consuming and disorganization in the time table.

The distance they travel to the source causes misbehavior of pupils dodging lessons and escaping from school.

We shall be very grateful if our application is accorded your cordial consideration.

Yours faithfully;

AHENDA PETER  
HEAD TEACHER
