RE: REQUEST FOR A BORE HOLE

I hereby request your office to dig a bore hole for our school.

The school and the community has no safe water, the water used is collected from swamps of about 11/2 km.

This disturbs the pupils' performance, because pupils take a lot of time on the way missing lessons.

The water is usually dirty and we share with animals. This has brought sickness among our pupils, especially water borne diseases thus absenteeism and low performance in the school.

I will be grateful if my request meets your parental consideration.

I remain yours faithfully

.....Tyobo I.....

TYOBO IRENE

HEAD TEACHER
